FAQs

What are the spikes for?

The spikes improve sound quality of the built-in speakers by reducing vibrations. The spike shoes can be used to protect surfaces from damage when the spikes are used.

How do I clean the projector?

To clean the reflective mirror, please use microfiber fabric to prevent scratches or damage to the surface. You can clean the projector body with a slightly damp towel to wipe off the dust.

Note: any kind of chemical cleaner might damage the surface.

Can I charge my projector with a power bank?

Yes, you can use a power bank to charge your projector if it has a power output of 15V/3A.

How do I maximize the battery life?

1. Please make sure you deep charge and discharge the battery the first three times it is used.
2. Make sure you charge the projector at least once every 3 months. Neglecting to do this might cause the battery to deteriorate.
3. Please store the projector in an environment where the temperature is between 14°F and 140°F.

What are the spikes for?

Category	App name		Category	App name
Entertainment	Netflix	SPB TV	Music	Spotify
	iQiyi	WATCHA		iHeartRadio

How to easily set up your projection

You can project from **the front**, **the side**, or even onto **the ceiling**.

▶ Front Projection

Step 1.

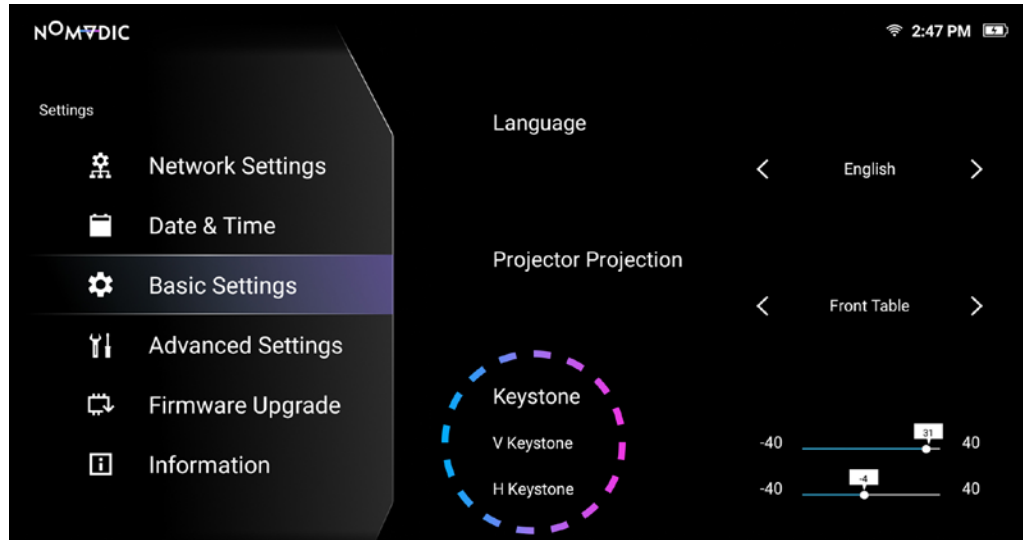

Adjust the projection by flipping up the reflective projection mirror.

Step 2.

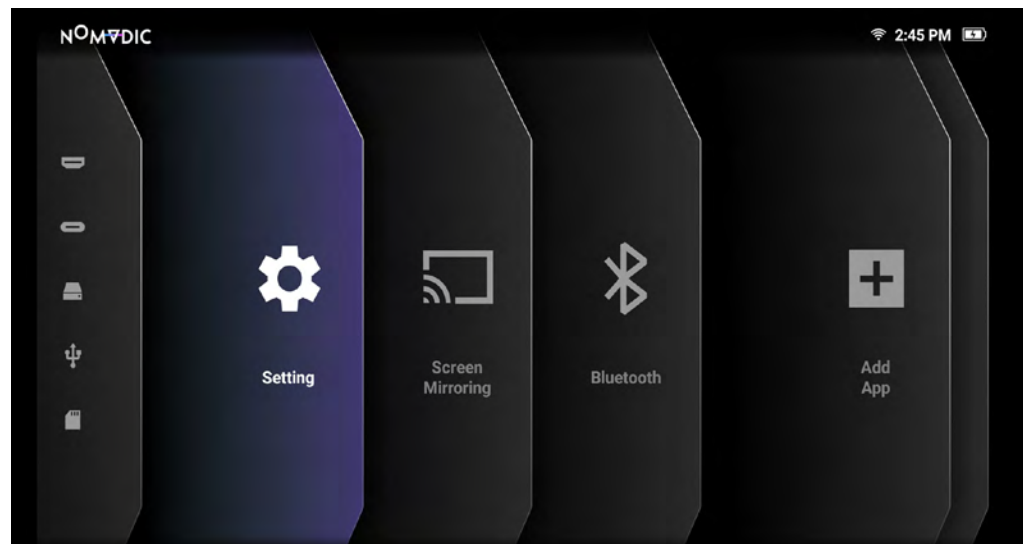

Adjust the focus by pressing the focus button on the remote control and click the left or right buttons. You can also push the forward or backwards focus button on the top keypad.

▶ Side Projection

Step 1.

Go to **Settings > Basic Setting**

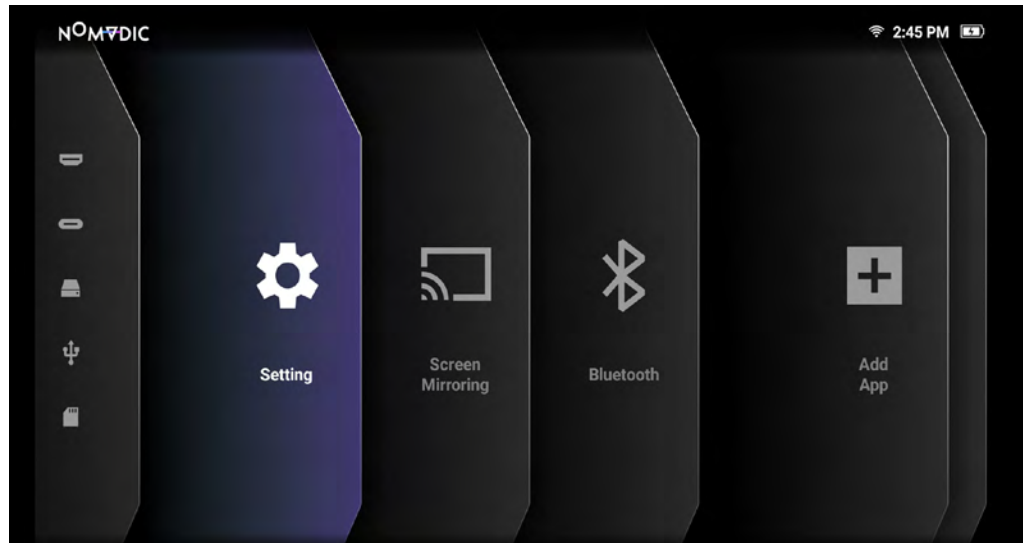

Step 2.

Select H/V keystone and click left or right to adjust.

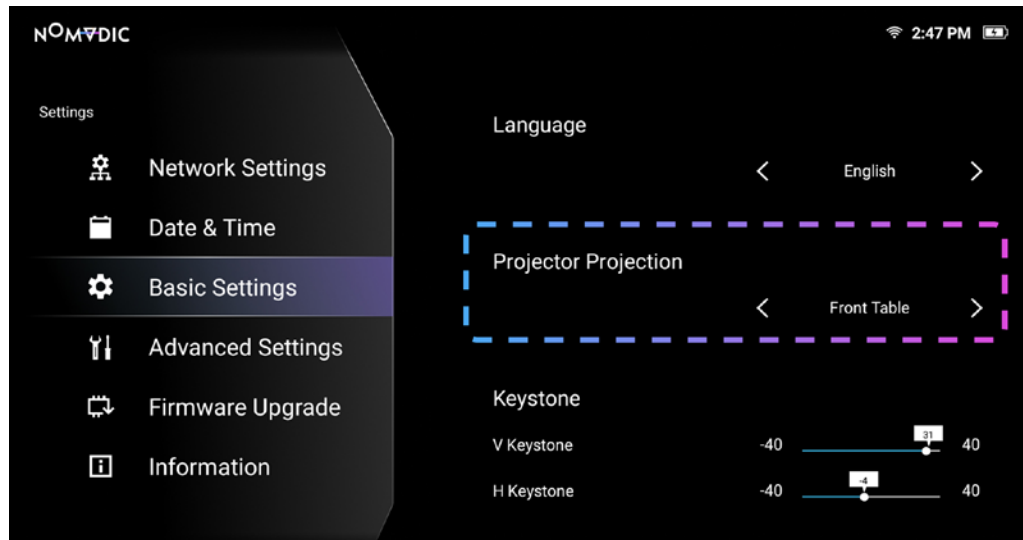

You can also use the **control knobs** on the top keypad to adjust the keystone.

► Ceiling Projection

Step 1.

Go to **Settings > Basic Setting**

Step 2.

In **Projector Projection**, select **Rear Ceiling**

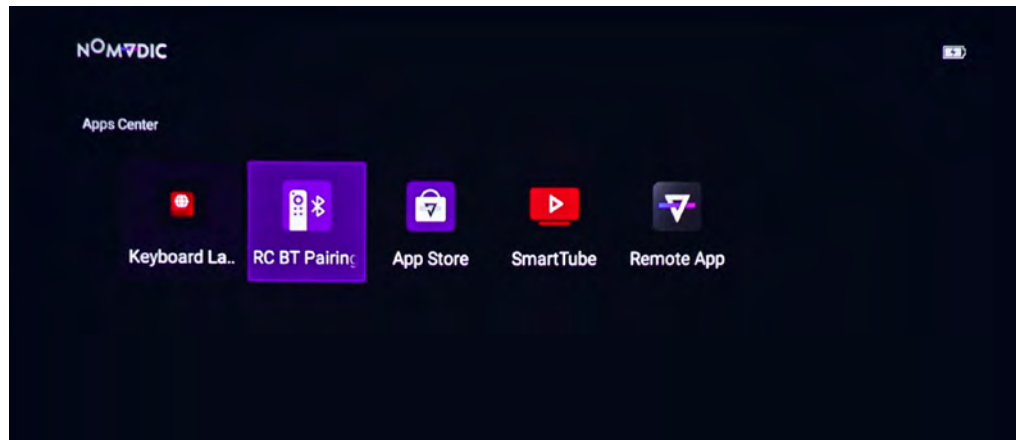

Step 3.

Flip the reflective mirror to 90 degrees.

How to remotely control your projector

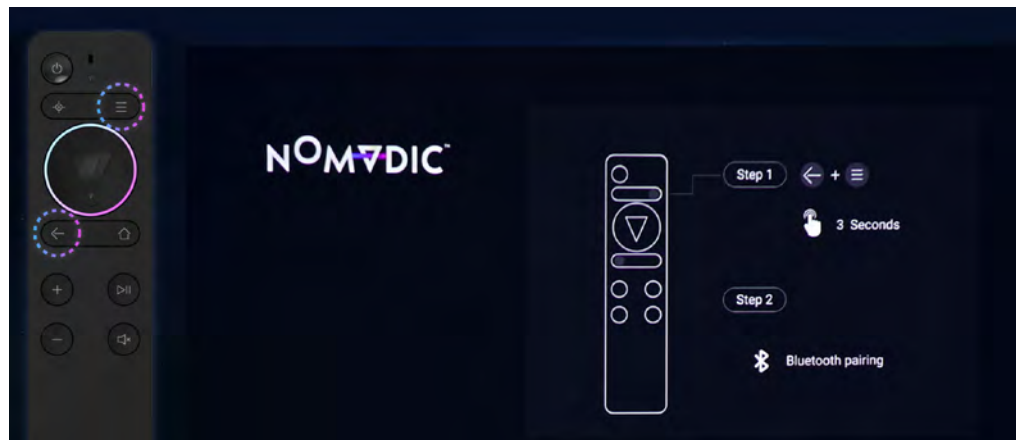

▶ Bluetooth Remote Control

Follow the instructions when you launch the projector for the first time. Follow the instructions below to pair again.

Step 1.

Go to **Apps Center > RC BT Pairing**

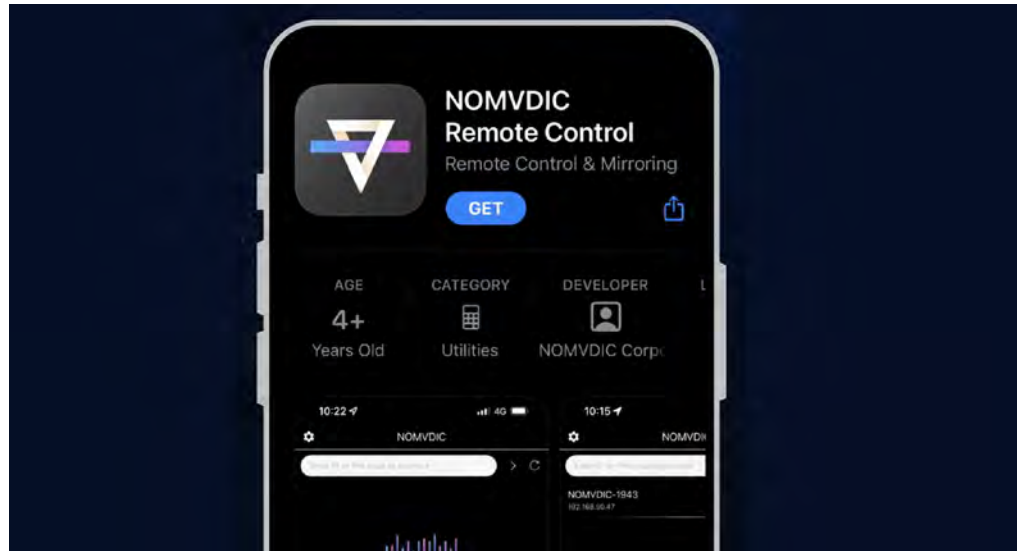

Step 2.

Press and hold the **Return** and **Menu** buttons simultaneously for **3 seconds**.

Step 3.

Pairing successful

▶ NOMVDIC Remote Control App

Step 1.

Download the **NOMVDIC Remote Control** app onto your smartphone. Connecting your phone and the projector to the same Wi-Fi Network.

Step 2.

Open the **NOMVDIC Remote Control** app and select the projector.

Step 3.

Now you can use your smartphone as the remote control.

How to stream Netflix and Disney+ on your projector

▶ Via Streaming Devices for Netflix and Disney+

Step 1.

Connect your streaming device to the projector.

Step 2.

Select the streaming service you wish to use.

▶ **Via a Cable Connection for Netflix and Disney+**

USB-C Connection.

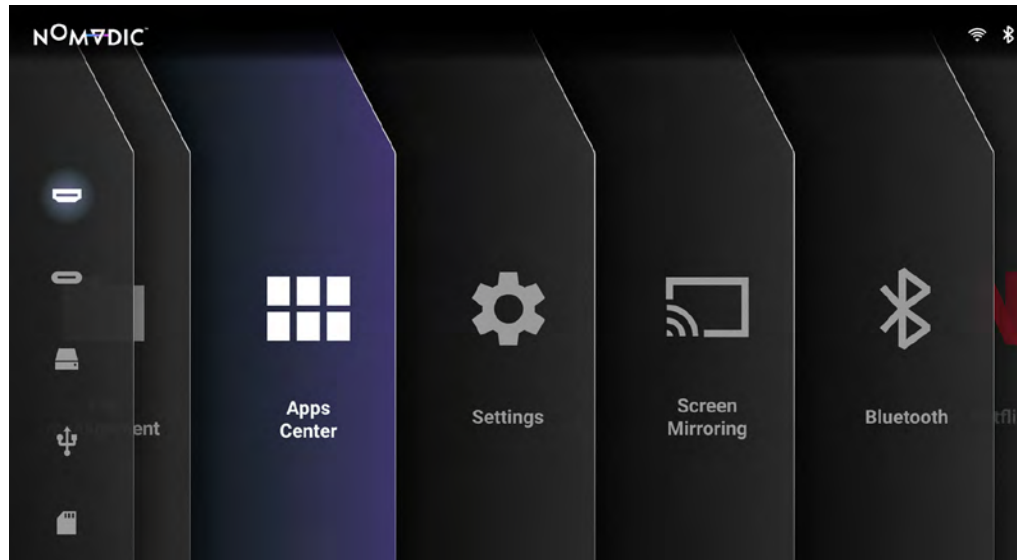

Connect your device to the projector using a USB-C cable.

HDMI Connection.

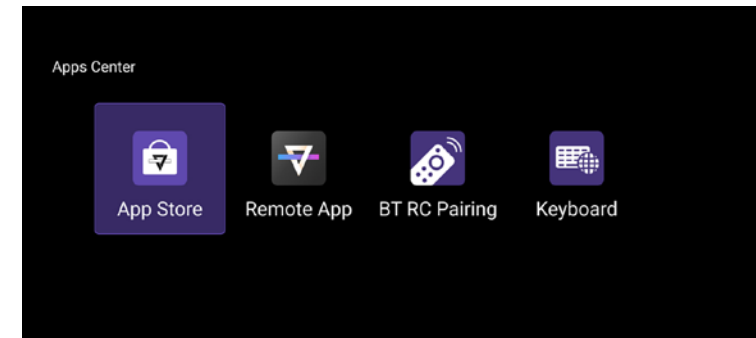

Connect your device to the projector using an HDMI cable.

▶ Via the Built-in App Center for Netflix

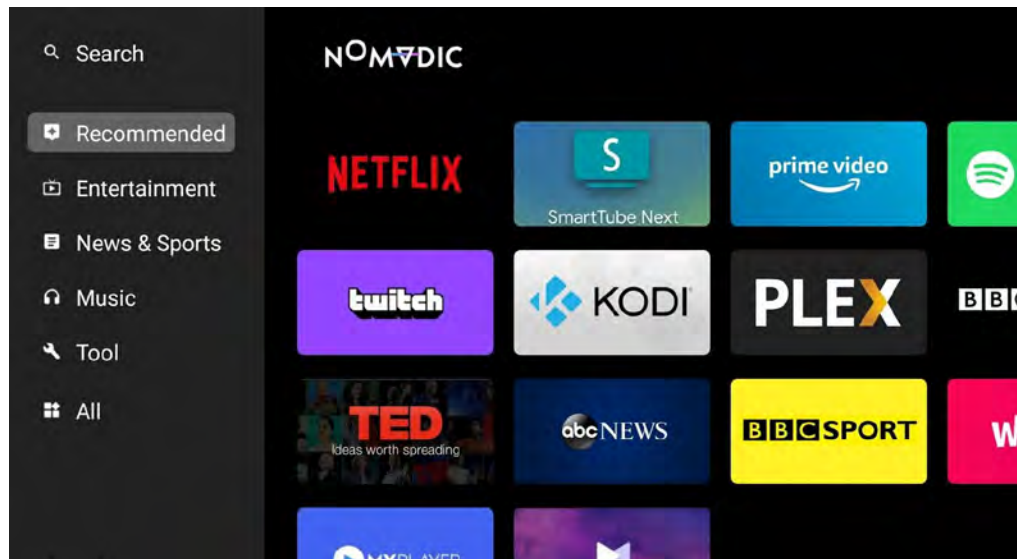

Step 1.

In the main menu, go to **Apps Center > App Store**.

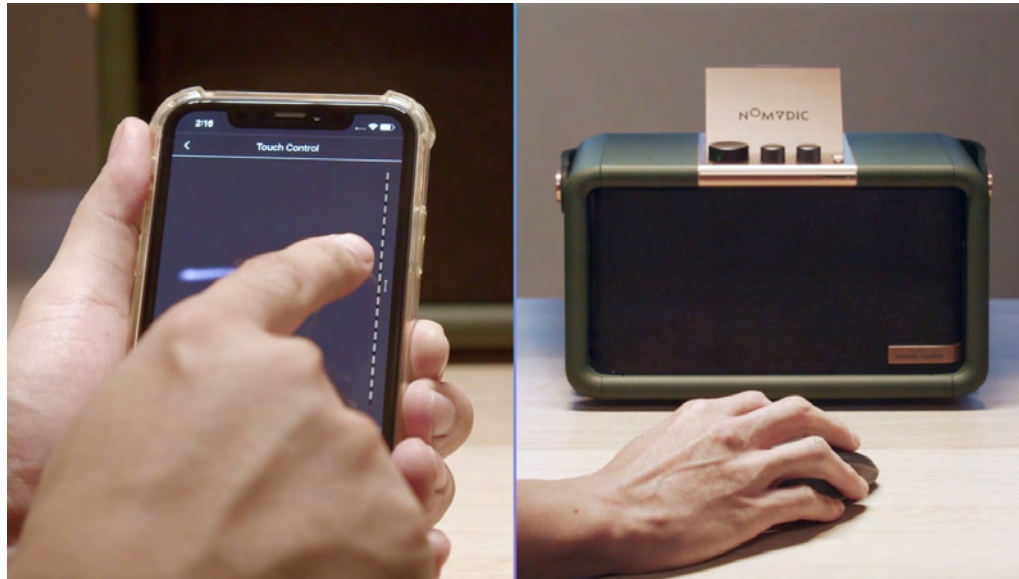

Step 2.

Find **Netflix** under **Recommended > Install**

Step 3.

Click **Finish > Sign In** (A mouse or the **NOMVDIC Remote Control app** is required).

For easier navigation, use the NOMVDIC Remote Control app on your smartphone, or connect a mouse.
